

In reviewing the file, Perry found an application for a licence from the Rural Municipality of Hamiota in 2002 for similar works. This licence could be used to initiate the process to deal with this issue. Perry will first have to obtain affected landowner's consent.

The overall intent of this project is not to take more water off the slough but to drain the existing water more efficiently.

Perry needed to know if the municipality would like to know if the R.M. would like to continue with their licence.

A number of other issues pertaining to drainage were discussed and Council thanked Perry for his time and indicated that they would get back to him on his questions.

11:40 am Butch Kirk, Public Works

Butch was before Council to discuss accessing a new source for shale. The current source is used up. Council agreed that a committee would meet tomorrow at 10:00 am to look at options.

- The golf course will be done pumping water southeast of the Town and the grade can be finalized.
- Roadside grass cutting will commence on Monday.
- Butch on holidays the week of August 22, 2005
- It was agreed that the Municipality would pursue the licence for drainage southeast of the six-mile-slough but would not commit any funds. The CAO to contact Water Stewardship with the decision.

7. CAO Reports:

- Council recommended that Little River Earthmoving be contacted to do the PGRP. The Committee can meet to discuss doing the work with them and bring a formal proposal back for Council's consideration.
